PUR Explorer

This water filter removes harmful micro-organisms as well as viruses, which are too tiny to be trapped by filtration alone. It screens out larger impurities, then passes water through a unique tri-

iodine resin, deactivating all of the remaining micro-organisms. The Explorer's effectiveness against viruses is especially useful for trips abroad, where viruses pose a greater risk. Easy to clean! Simply rotate the

handle and pump it a few times. The Explorer comes with extra-long 3' inlet and outlet hose, and water bottle clip. It also comes with a circular inlet strainer that improves water flow and extends filter life.

WhisperLite Stove

Today's campsite cooks can do almost anything. You can brew up a cup of morning espresso, power up with a trailside snack, or fry some fresh trout. This Stove has long been one of the most popular stoves on the trail. It is light, compact, rugged, fuel-efficient, quiet and hot-burning. Comes with a windscreen.
